

THE Minster
RANGE

eborcraft

DESKS • STORAGE • TABLES • WORKSTATIONS

Eborcraft skilfully combines over 100 years of experience with a modern manufacturing environment to produce beautifully hand finished, natural wood veneer office furniture. Catering for individual requirements through its bespoke service, Eborcraft creates not merely desking, storage or meeting tables, but fine pieces of furniture.

The premium Minster range combines beautifully co-ordinated storage and pedestals with meeting tables and desks to offer versatile whole room solutions. Designed as a modular system, furniture can be easily arranged to suit both private working rooms and group meeting areas, making it ideal for managerial and executive offices.

Stylish linked meeting tables in matching wood veneers make the elegant Minster furniture both practical and professional.

Classic furniture can be given a contemporary twist for more informal and relaxed meeting areas by selecting a modern cylindrical or conical base, stylishly fused with metal.

Discreet fridge options incorporated into storage complete a fully functional and co-ordinated working environment.

In a choice of slab end or bow fronted, Minster workstations discreetly cater for modern technology with an integral cable management system.

The Minster range offers a wide choice of real wood veneers to suit a variety of tastes, from rich Cherry, to popular Maple, exotic Bird's Eye Maple and premium English Pippy Oak. Each veneer is carefully selected for its quality and appearance.

Using an innovative programme from software designers Somnia, we can provide detailed three-dimensional room layouts using your office dimensions and furniture from the Minster range. All the Minster furniture has been digitally created in every top shape, base option, veneer and crossbanding choice which can be quickly inserted into a room plan to show the many different co-ordinated choices of tables, workstations and storage solutions.

Furniture can be moved around the room, veneer choices and other options can be viewed and the whole room plan can be rotated 360 degrees, helping you to visualise your new Minster office from every angle before you even place an order.

Crossbanding is a decorative effect achieved by combining two veneers with a fine inlaid band to create an attractive border.

Other veneer and crossbanding options are available on request

Whether it is placed in a compact meeting room or an open plan office, the gently sweeping arcs of a dual curve top, mounted on an attractive arrowhead base, makes a positive impression while optimising on space. Richly grained Cherry crossbanded with premium Bird's Eye Maple and finished with a durable satin polish further enhances its beauty, adding interest and prestige to any size room.

Bird's Eye Maple and Natural Cherry

See separate price list for dimensions and specifications. We reserve the right to alter specifications without prior notice. E & OE. Colours shown are as accurate as the printing process will allow. We recommend that you ask your retailer for a veneer sample prior to order.
