Enfield

Enfield Seating is highly versatile and modular for larger reception areas and common rooms. Just three different shaped sections can create a range of interesting curves - straight unit, internal and external units. Straight units may be specified with left hand or right hand arms (when seated). Attractive embossed seat backs add to the appealing design.

- Made in the UK
- 5 Year guarantee

Hygienilac is the first wood lacquer available in the UK that kills most species of bacteria, including the deadly MRSA, salmonella and E.coli, and it goes on killing them for the lifetime of the lacquer - as long as 10 years!

Already used in hospitals, care homes, nurseries, offices and in consumers' homes, Hygienilac is providing that extra protection that clients and consumers are looking for.

How does Hygienilac Work?
Hygienilac prevents the bacteria's access to nutrients so they starve and die. It has a kill rate of 99.9 per cent over a 24 hr period.
