

Marz

Ergonomic Seating 24 Hour Use

This Ergonomic chair is produced with comfort and support as its primary aim. Contributing to this aim is the extra large seat fitted with a seat slide. The Marz has a double curved back fitted with a free float mechanism with an 8 degree forward tilt. This chair also has weight tension control, gas height adjustment and an independent ratchet back with height adjustability. All this gives a level of adjustment that ensures support throughout every movement. Suitable for 24/7 use when upholstered in 24/7 fabric. This versatile range of chairs should meet the needs and requirements of the most discerning user.

Marz & Flite Features

- Free floating mechanism with seat slide
- 24 Hour Use - 2 year guarantee
- 8 degree forward tilt
- Weight tension control
- Gas lift up to 25 stone/150 kilos
- Independent back height adjustment
- Multi-functional width and height adjustable arms as standard
- Black base as standard
- Flame retardant foam
- 25 Stone mechanism
- 5 Year guarantee (normal use)
- Made in the UK

Flite

Ergonomic Seating 24 Hour Use

Modern offices need a chair to meet the various demands placed on them and to give comfort and support throughout the day. The Ergonomic Flite with its free float mechanism giving fluid movement whilst continuing to give support in all positions, meets that demand. Suitable for 24/7 use when upholstered in 24/7 fabric. The specification of this chair shows it has the comfort of the user as its priority at all times. 98% of all the working population can be accommodated by this chair. The only chair you will ever need.

Adjusting The Marz or Flite

- A Gas height adjustment: Lift lever to raise or lower your chair
- B Body weight tension control: Turn clockwise to increase tension or anticlockwise to decrease tension
- C Tilt control lever: Lift lever to activate free float or push lever down to lock chair in desired working position
- D Seat depth adjustment: Lift lever and slide seat in or out to suit the height of person
- E Arm height adjustment: Push button and lift arm to suit user
- F Seat width adjustment: Release lever from under the seat to adjust the seat width to suit the user then lock Marz Models Only
- G Back height adjustment: With both hands lift the back up to the desired position to suit the users lumbar region

Model shown MR01 with optional polished metal base and chrome height adjustable arms

Hygienilac is the first wood lacquer available in the UK that kills most species of bacteria, including the deadly MRSA, salmonella and E.coli, and it goes on killing them for the lifetime of the lacquer - as long as 10 years!

Already used in hospitals, care homes, nurseries, offices and in consumers' homes, Hygienilac is providing that extra protection that clients and consumers are looking for.

How does Hygienilac Work?
Hygienilac prevents the bacteria's access to nutrients so they starve and die. It has a kill rate of 99.9 per cent over a 24 hr period.
